## Aurizon Trade and Services Matrix Role examples (A-Z)

NOTE: These are to be used as a guide only. If you are unsure which role applied to you, please seek clarification from Aurizon as to what role is required for your intended duties. It is the individual's responsibility to ensure that the appropriate role is held before work is carried out.

Role	Descriptor
Authorised Person	A worker who has received training and assessment to be responsible for the electrical safety of workers performing work that involves contact with, or being near to, the electric traction infrastructure.
Responsible Worker	A Competent Worker on site who identifies hazards and implements controls prior to the commencement of work in the rail corridor. A Responsible Worker must be assigned for each work activity that is performed in the rail corridor and remain onsite for the duration of the work activity.
Spotter	A Plant Spotter is a nominated and trained person who is assigned to oversee and direct the safe movement of plant and the management of the exclusion and/or restricted zones.
Supervisor	<p>A Supervisor is required to:</p> <ul style="list-style-type: none"><li>• Exercise visible leadership and educating workers on their health and safety responsibilities.</li><li>• Participate in identifying, assessing and applying controls to potential hazards and risks.</li><li>• Consult with workers and industry partners SFAIRP, on changes that may impact their safe systems of work.</li><li>• Provide workers with appropriate access to resources, training and education in safe systems of work.</li><li>• Keep vigilance of workplace conditions with the purpose of preventing illness or injury to workers.</li></ul>
