TLIF2080	Safely access the rail corridor Rail Operators have specific access requirements, therefore if you have obtained this unit of competence from a training provider not endorsed by the rail operator you may require further training.	M	M	M	M	M	M	M	M	M	M	M	M	M	M	M

Notes:
M* = Must hold the machine specific competency or licence relevant to operations and/or state based requirement.
* = Must hold Workcover / Worksafe High Risk License for Task.
(1) = Must hold the appropriate trade or licence for tasks being conducted.
(2) = Must hold one of the UOC depending on machine size i.e. over/under 10T.
= Conditional operator requirement.

National Trades Matrix

Licencing Details

High Risk Roles
National - Dogman
National - Rigger
National - Scaffolder
High Risk Work Licences
Licence to perform rigging basic level (RB)
Licence to perform rigging intermediate level (RI)
Licence to perform rigging advanced level (RA)
Licence to perform scaffolding basic level (SB)
Licence to perform scaffolding intermediate level (SI)
Licence to perform scaffolding advanced level (SA)
Electrical Licence
Licence to perform dogging (DG)

NOTES:
It is the individual's responsibility to ensure that state licensing requirements are held before work is carried out.

Role examples (A-Z)

NOTE: These are to be used as a guide only. If you are unsure which role applied to you, please seek clarification from the operator with whom you propose to work as to what role is required for your intended duties. It is the individual's responsibility to ensure that the appropriate role is held before work is carried out.

Role	Examples
Auto Electrician	An auto electrician is a tradesperson specialising in electrical wiring of motor vehicles. Auto electricians may be employed in the installation of new electrical components or the maintenance and repair of existing electrical components.
Boilermaker	A boilermaker is a qualified tradeperson in which the primary work is to produce steel fabrications from plates and tubes, along with providing specialist welding services.
Bricklayer	A bricklayer is a qualified tradesperson who lays bricks to construct brickwork.
Carpenter	Carpentry is a qualified trade in which the primary work performed is the cutting, shaping and installation of building materials during the construction of buildings, timber bridges, concrete formwork, etc.
Dogman	A dogman or rigger specialises in the lifting/moving of large and heavy pipes and equipment. They must work together to ensure the slings are safely placed on the equipment to be lifted and that the slings are loaded onto the crane's hooking correctly. A dogman or rigger then directs the crane operator by either radio or hand signals to advise him when the load can be lifted and moved. Although not a physically demanding role, they are required to work on uneven ground and are constantly looking overhead watching the crane's hook.
Electrician	Installs, tests, connects, commissions, maintains and modifies electrical equipment, wiring and control systems. Registration or licensing is required.
Electronic Trades	Electronics technicians help design, develop, test, manufacture, install, and repair electrical and electronic equipment such as communication equipment, medical monitoring devices, navigational equipment, and computers. They may be employed in product evaluation and testing, using measuring and diagnostic devices to adjust, test, and repair equipment.
Site plant repairer/maintainer (formally Fitter)	A plant repairer/maintainer (formally known as fitter) is a person whose job is to assemble, adjust, repair, maintain or install machinery or equipment.
Formworker	A qualified person who constructs temporary or permanent moulds into which concrete or similar materials are poured.
Mechanic	A mechanic is a qualified tradesperson who performs mechanical work on mobile vehicles and plant
Plumber	A plumber is responsible for installing, repairing and maintaining pipes, fixtures and other plumbing used for water distribution and waste water disposal in commercial and residential buildings.
Refrigeration	Refrigeration Technicians, commonly known as Refrigeration Mechanics, repair, install and troubleshoot refrigeration systems. They can work on industrial or residential climate-control systems, such as HVAC units and refrigerated storage units.
Rigger	A dogman or rigger specialises in the lifting/moving of large and heavy pipes and equipment. They must work together to ensure the slings are safely placed on the equipment to be lifted and that the slings are loaded onto the crane's hooking correctly. A dogman or rigger then directs the crane operator by either radio or hand signals to advise him when the load can be lifted and moved. Although not a physically demanding role, they are required to work on uneven ground and are constantly looking overhead watching the crane's hook.
Scaffolder	Scaffolders erect, alter and dismantle temporary scaffolding structures that provide work platforms and stairway access to building sites.
Sheet Metal Worker	A sheet metal worker is a qualified tradesperson who creates, installs, and repairs sheet metal products.
Steel Fixer	Steel fixers position and assemble steel bars and mesh sheeting with ligatures to form reinforcement for concrete structures such as concrete slabs, columns, drainage and communication pits, walls and concrete barrier structures. Steel fixing is the mould created prior to pouring the concrete.

Currency Requirements

NOTE: These are to be used as a guide only. If you are unsure which currency period applies to you, please seek clarification from the operator with whom you propose to work. It is the individual's responsibility to ensure that the appropriate currency is held before work is carried out.

Roles with currency requirements	Comments
Dogman	Dogman licence need to be updated every 5 years
Plumber	Licence valid for up to 5 years
Rigger	Basic, intermediate and advanced rigging licences need to be updated every 5 years
Scaffolder	Basic, intermediate and advanced scaffolding licences need to be updated every 5 years
