

ARTC ENGINEERING DESIGN & PROJECT MANAGEMENT MATRIX UPDATE

ARTC Employees, Assessors & Contractors 17 July 2024

The purpose of this notice is to provide an update on the mandatory eLearnings for ARTC Engineering & Design and Project Management Matrices.

As updated in the previous communication released on [14th March](#) and [16th April](#), we have added the Mandatory eLearnings to the ARTC [Engineering & Design](#) and [Project Management](#) roles in RIW.

What action must be undertaken?

If you hold any Project Management role on the current ARTC [Project Management Matrix](#), you are required to complete the below e-Learnings:

- ARTC Project Management
- ARTC Configuration Management
- ARTC Drawing Management System

If you hold any Engineering Design role on the current ARTC [Engineering and Design Matrix](#), you are required to complete the below e-Learning:

- ARTC Drawing Management System

The above e-Learnings are available via the [ARTC Learning Management System \(LMS\)](#). Refer to the [previous comms](#) issued for detailed information.

Note: If you have already uploaded the above eLearning's in RIW, no further action is required.

Who will be affected?

All workers who hold or are working towards any of the ARTC [Engineering & Design](#), [Project Management](#) roles in RIW and have not uploaded the below eLearning certificates in the Rail Industry Worker system.

- Certificate.ARTC - Configuration Management Training (99835)
- Certificate.ARTC - Drawing Management System Training (99833)
- Certificate.ARTC - Project Management Training (99834)

Please work with your employer to ensure your RIW profile is up to date. Any questions related to this update can be directed to RIWHelp@ARTC.com.au.
